 - report of, 55
- American Dental Association, 153, 237, 477, 638, 799, 877, 945
 - biography of John R. Abel, new president, 154
 - Council on Dental Education, 799
 - Resolution 2, 21, 82, 324, 437, 447, 483, 573, 585, 644, 885
 - employees now covered by dental insurance, 154
 - Leland C. Hendershot named assistant editor, 398
 - specialists, specialties, and specialization, 579
 - to present television spectacular, 74

January, pp. 1-80; February, pp. 81-160; March, pp. 161-240; April, pp. 241-320; May, pp. 321-400; June, pp. 401-480; July, pp. 481-560; August, pp. 561-640; September, pp. 641-722; October, pp. 723-802; November, pp. 803-882; December, pp. 883-964.

- Anchorage, extraoral, effects compared to those of Class II mechanics on cant of occlusal plane, 555 (Abst.)
 movement, 788 (Abst.)
 Ankylosis, tooth, etiology and treatment, 670
 Apical bases and incisors, positional relationship in Class I and Class II, Division 1, cephalometric study, 629 (Abst.)
 Appliance(s), cervical traction, component forces induced with several types of, 552 (Abst.)
 labio-lingual, technique and treatment with, 136 (B. rev.)
 light-wire; practical application of light-wire technique, 650
 multibanded; rationale of segmented arch, 805
 orthodontic; early orthodontics in Chicago area, 32
 twin-wire, technique and treatment with, 311 (B. rev.)
 Arch form, dental, perioral musculature in relation to basal bone and, 633 (Abst.)
 study of various dimensions and relationships in maxillary arch, 554 (Abst.)
 torsion of maxillary first permanent molar and its relationship to, 787 (Abst.)
 maxillary, various dimensions and relationships in, 554 (Abst.)
 practical application of light-wire technique, 650
 segmented, rationale, 805
 width(s), coordination of; five steps to better occlusion in Class II treatment, 188
 obtained from posteroanterior cephalograms and plaster casts, 394 (Abst.)
 wires, stainless steel, metallurgical aspects, 192
 Argentine Society of Orthodontics, 237, 318, 558
 Arthritic diseases; orthocardia, 601
 orthodontist's role in diagnosis and treatment of temporomandibular joint disorders, 751
 Atherosclerosis; orthocardia, 602

B

- Baker, Charles R., to be honored, 636
 Bands, indirect banding; practical application of light-wire technique, 650
 orthodontic, indirect construction, 220 (Abst.)
 Begg technique; practical application of light-wire technique, 650
 Birth trauma, relation to malocclusion, 472 (Abst.)
 "Blacky" projective test, some psychological differences between children with well-aligned incisors and those with spaced protrusive incisors as revealed by, 625 (Abst.)

- Bone(s), basal, and dental arch form, perioral musculature in relation to, 633 (Abst.)
 of human craniofacial complex, genetic control of growth of, 67 (Abst.)
 Brackets; rationale of segmented arch, 805
 Victory; practical application of light-wire technique, 650
 British Society for Study of Orthodontics, 238
 Brophy, James E., new executive secretary of A. A. O., 235

C

- Calvaria, rat, extrinsic determination of sutural area in, 790 (Abst.)
 Cancer; orthocardia, 601
 Canines, ectopic maxillary; problems in everyday practice of orthodontics, 595
 permanent, role in race for space, 241
 Cardiovascular diseases; orthocardia, 600
 Caribbean Dental Convention, second, 880
 Cement, oxyphosphate, enamel surface change caused by, 219 (Abst.)
 Cephalometrics; analysis and extraction formulas for orthodontic treatment planning, 414
 orthographic projection as aid in interpretation of basilar cephalometric roentgenograms, 556 (Abst.)
 roentgenographic, 135 (B. rev.)
 roentgenology in orthodontics, 845
 role in diagnosis and prognosis of malocclusions, 911
 stability of landmarks in cephalometric roentgenography, 631 (Abst.)
 Cerebral palsy patients, skeletal and dental patterns of, 66 (Abst.)
 Cervical headgear; eruption path of permanent maxillary molars in Class II, Division 1 malocclusion using headgear, 367
 traction appliances, component forces induced with several types of, 552 (Abst.)
 Challenge of changing world, 406
 Chicago area, early orthodontics in, 29
 Chicago Association of Orthodontists, 71
 Children, cleft palate, growth of palatal shelves in, 64 (Abst.)
 morphology of nasal septum in cleft and non-cleft children, 785 (Abst.)
 cooperation of orthodontists and pedodontists, 211 (Editorial)
 dwarf, dentofacial anomalies in four, comparative study, 706 (Abst.)
 general and dentofacial growth and development in, systemic disturbances in relation to, 1
 with good occlusion studied longitudinally from age 9 years to late adolescence, size and form of dental arches, 938 (Abst.)
 with well-aligned incisors and those with spaced protrusive incisors, some psychological differences between, as revealed by "Blacky" projective test, 625 (Abst.)

- Chin implant; case report, 361
- Cigarette smoking as possible cause of cancer and coronary disease; orthocardia, 601
- Class II mechanics, effects of, compared to those of extraoral anchorage on cant of occlusal plane, 555 (Abst.)
- treatment, five steps to better occlusion in, 175
- Cleft lip and/or palate; morphology of nasal septum in cleft and non-cleft children, 785 (Abst.)
- palate adults, untreated, and normal adults, comparative model analysis, 63 (Abst.)
- children, growth of palatal shelves in, 64 (Abst.)
- cortisone-induced, in inbred mice, 626 (Abst.)
- individuals, operated, functioning of velopharyngeal mechanism in, as compared to that of noncleft individuals, radiographic cephalometric study, 390 (Abst.)
- patients displaying anteroposterior deficiencies in middle third of face, radiographic cephalometric analysis, 388 (Abst.)
- Committee on Administrative Secretary, American Association of Orthodontists, 1960-61 report, 215
- on Related Organizations, American Association of Orthodontists, 1960-61 report, 131
- Condylar fractures; orthodontist's role in diagnosis and treatment of temporomandibular joint disorders, 751
- Constitution and Bylaws Committee, American Association of Orthodontists, 1960-61 report, 306
- Convention Manual Committee, American Association of Orthodontists, 1960-61 report, 299
- Convention Planning Committee, American Association of Orthodontists, 1960-61 report, 216
- Coronary disease and cigarette smoking; orthocardia, 601
- Craniofacial asymmetry, investigation using serial twin-study method, 219 (Abst.)
- complex, human, genetic control of growth of bones of, 67 (Abst.)
- Cross-bite, unilateral posterior; abnormal function of stomatognathic system and its orthodontic implications, 761
- Curve of Spee, effect of leveling on mandibular arch length, 554 (Abst.)

D

- Deaths (*See also* In memoriam)
- Oliver Devitt, 238
- William E. Flesher, 638
- James W. Ford, 479

Deaths—Cont'd

- Alfred Kantorowicz, 947
- Cecil Muller, 720
- Sharon Murphey, 720
- Raymond C. Sheridan, 880
- Clarence O. Simpson, 559
- Oliver Wilson White, 158
- William F. Wood, 880
- Dental and skeletal patterns of cerebral palsied, roentgenographic cephalometric survey, 66 (Abst.)
- arch form, perioral musculature in relation to basal bone and, 633 (Abst.)
- in children with good occlusion studied longitudinally from age 9 years to late adolescence, size and form, 938 (Abst.)
- length, effect of rotated teeth, 469 (Abst.)
- assistants and hygienists; efficient practice management, 98
- president's address, Great Lakes Society of Orthodontists, 725
- care, why people seek, 713 (Abst.)
- caries and lost first permanent molars, malocclusion related to, prevalence in fluoridated city and fluoride-deficient city, 106
- insurance (*See* Insurance)
- laboratories that teach and practice orthodontics, 440, 858
- Dentofacial and general growth and development in children, systemic disturbances in relation to, 1
- anomalies in four dwarf children, 706 (Abst.)
- Dentoskeletal and facial plane relationships in excellent occlusions, cephalometric appraisal of integumental profile relative to, 553 (Abst.)
- framework supporting integumental profile, 389 (Abst.)
- Dentures, immediate, behavior of points A and B in patients with, 625 (Abst.)
- Denver Summer Meeting, 397, 478, 558
- Deutsche Gesellschaft für Kieferorthopädie, 398
- Dewey, Martin E., Memorial Award, presentation to Tullie Wallace Sorrels, 148
- response, 151
- Diagnosis and treatment of temporomandibular joint disorders, orthodontist's role, 747
- clinical application of tooth-size analysis, 504
- comprehensive—specific treatment, 727
- oral, differential, handbook of, 869 (B. rev.)
- Diagnostic facial triangle, development as accurate analysis, 823
- Discrepancy cases, Class I, treated by serial extraction procedures, cephalometric and clinical evaluation 631 (Abst.)

- Dwarf children, dentofacial anomalies in four, comparative study, 706 (Abst.)
 Dysplasia, mandibular, studies in: response of gonion to resection of right unilateral pterygoid muscle, 393 (Abst.)

E

- Edgewise appliance; round-table discussion: systems versus basic principles in orthodontics, 251
 Editor, American Association of Orthodontists, 1960-61 report, 48
 Education Committee, American Association of Orthodontists, 1960-61 report, 49
 of Northeastern Society of Orthodontists, report, 143
 of Southern Society of Orthodontists, 317
 Education, orthodontic; areas of instruction considered essential for post-graduate programs in orthodontics, 863
 challenge of, 883
 efficient practice management, 98
 facilities; socioeconomic trends relating to orthodontics, 895
 for nonorthodontist, 436
 inaugural address, 614
 president's address, American Association of Orthodontists, 326
 requirements for specialists; specialists, specialties and specialization, 579
 short courses, 127
 A.A.O. resolution regarding, 795
 president's address, Northeastern Society of Orthodontists, 644
 Southwestern Society of Orthodontists, 566
 specialty practice requires special education, 45 (Editorial)
 Elastics, Class III and Class II, effect during treatment of Class I and Class II extraction cases, cephalometric evaluation, 472 (Abst.)
 Enamel surface change caused by oxyphosphate cement, 219 (Abst.)
 Endocrine disorders; systemic disturbances in relation to general and dentofacial growth and development in children, 1
 Epithelial activity in exfoliation of deciduous tooth and emerging permanent tooth, 394 (Abst.)
 Eruption; etiology and treatment of tooth ankylosis, 670
 path of permanent maxillary molars in Class II, Division 1 malocclusion using headgear, 367
 Estate planning; orthodontist and taxes, 114
 Esthetics, facial; was development of diagnostic facial triangle as accurate analysis based on fact or fancy? 823
 Europe, voice from, 612

- Exfoliation of deciduous tooth and emerging permanent tooth, epithelial activity in, 394 (Abst.)
 Exodontia; genesis of specialization, 27
 Extraction cases, Class I and Class II, effect of Class III and Class II elastics during treatment of, cephalometric evaluation, 472 (Abst.)
 formulas and cephalometric analysis for orthodontic treatment planning, evaluation, 414
 iatrogenic orthodontics, 770 (Editorial)
 problems in everyday practice of orthodontics, 586
 role of permanent canines in race for space, 245
 round-table discussion: systems versus basic principles in orthodontics, 251
 serial, cephalometric and clinical evaluation of Class I discrepancy cases treated by, 631 (Abst.)
 was development of diagnostic facial triangle as accurate analysis based on fact or fancy? 823
 Extraoral anchorage, effects compared to those of Class II mechanics on cant of occlusal plane, 555 (Abst.)

F

- Face and associated structures, congenital anomalies, 791 (B. rev.)
 Facial deformity corrected by orthodontic treatment, rhinoplasty, and chin implant; case report, 361
 pattern, ideal normal; comprehensive diagnosis—specific treatment, 727
 plane and dentoskeletal relationships in excellent occlusions, cephalometric appraisal of integumental profile relative to, 553 (Abst.)
 profile in adolescence, cephalometric evaluation, 220 (Abst.)
 triangle, diagnostic, development as accurate analysis, 823
 Fees; president's address, Great Lakes Society of Orthodontists, 726
 Fluoridation ordinance upheld by Missouri Supreme Court, 153
 prevalence of malocclusion, related to dental caries and lost first permanent molars, in fluoridated city and fluoride-deficient city, 106
 Football mouthpiece for orthodontic patient, 609
 Force(s), component, induced with several types of cervical traction appliances, 552 (Abst.)
